

Estimating time to the nearest hour

Grade 3 Time Worksheet

Date: _____

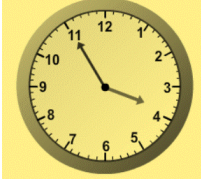

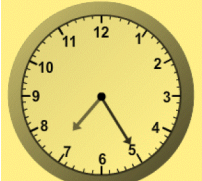

Name: _____

LET'S MAKE LEARNING FUN

Carefully read the following thermometers.

<p>1.  _____ .</p>	<p>6.  _____ .</p>
<p>2.  _____ .</p>	<p>7.  _____ .</p>
<p>3.  _____ .</p>	<p>8.  _____ .</p>
<p>4.  _____ .</p>	<p>9.  _____ .</p>
<p>5.  _____ .</p>	<p>10.  _____ .</p>

Estimating time to the nearest hour

1.  9:00 _____ .	6.  4:00 _____ .
2.  12:00 _____ .	7.  2:00 _____ .
3.  4:00 _____ .	8.  4:00 _____ .
4.  7:00 _____ .	9.  9:00 _____ .
5.  5:00 _____ .	10.  10:00 _____ .

FUN FACTS! We measure time in seconds, minutes, hours, days, weeks, months and years with clocks and calendars. Time is unstoppable! It runs continuously.

If the clock shows less than 30 minutes, round down to the current hour. If the clock shows 30 minutes or more, round up to the next hour.
