

GODWIN MATTHEW

WordPress/Elementor Developer & Aspiring Coding Instructor

As a WordPress/Elementor Expert with over a year of experience, I have worked on numerous projects by designing and developing custom, professional, functional & responsive websites that convert and bring satisfaction.

Beyond web development, I am expanding my expertise in beginner-friendly programming languages such as Scratch, Snap, and Python. I am passionate about making technology accessible to young learners and have been actively developing lesson plans and teaching strategies to help beginners grasp programming concepts effectively.

I believe successful projects are not just about building websites but also about empowering learners with digital skills. Ready to bring my skills and creativity to new opportunities.
