ABOUT ME

As a result-oriented Mathematics and STEM Educator, I bring over 9 years of experience in delivering captivating instruction both online and in-person, tailored to international curricula including Cambridge IGCSE, A Level, SAT, GRE, and TMUA. My approach is anchored in data-driven teaching strategies and the creation of personalized learning plans, which have consistently led to a 100% student success rate and an impressive 33% average grade improvement. My proficiency extends to digital platforms such as Google Classroom, Zoom, and Meet, enhancing my strong curriculum design, assessment, and learner engagement skills. I am committed to nurturing critical thinking and problem-solving abilities, driving measurable academic excellence within diverse virtual learning environments.
