PROFILE

A devoted educator with a strong commitment to ensuring the success of every child in their learning journey. My teaching way revolves around creating a friendly and encouraging classroom environment that resonates with learners.

With over five years of invaluable teaching experience, I have worked with students both in physical and online settings, locally and abroad.

During my teaching sessions, I love connecting concepts to real-life scenarios, allowing learners to grasp and apply the knowledge in a meaningful way.

KEY ACHIEVEMENTS

- Outstanding Female Graduate of Chemical Engineering Department (4.46/5.00)
- School/Department representative in multiple academic competitions
